

# Other Initiatives

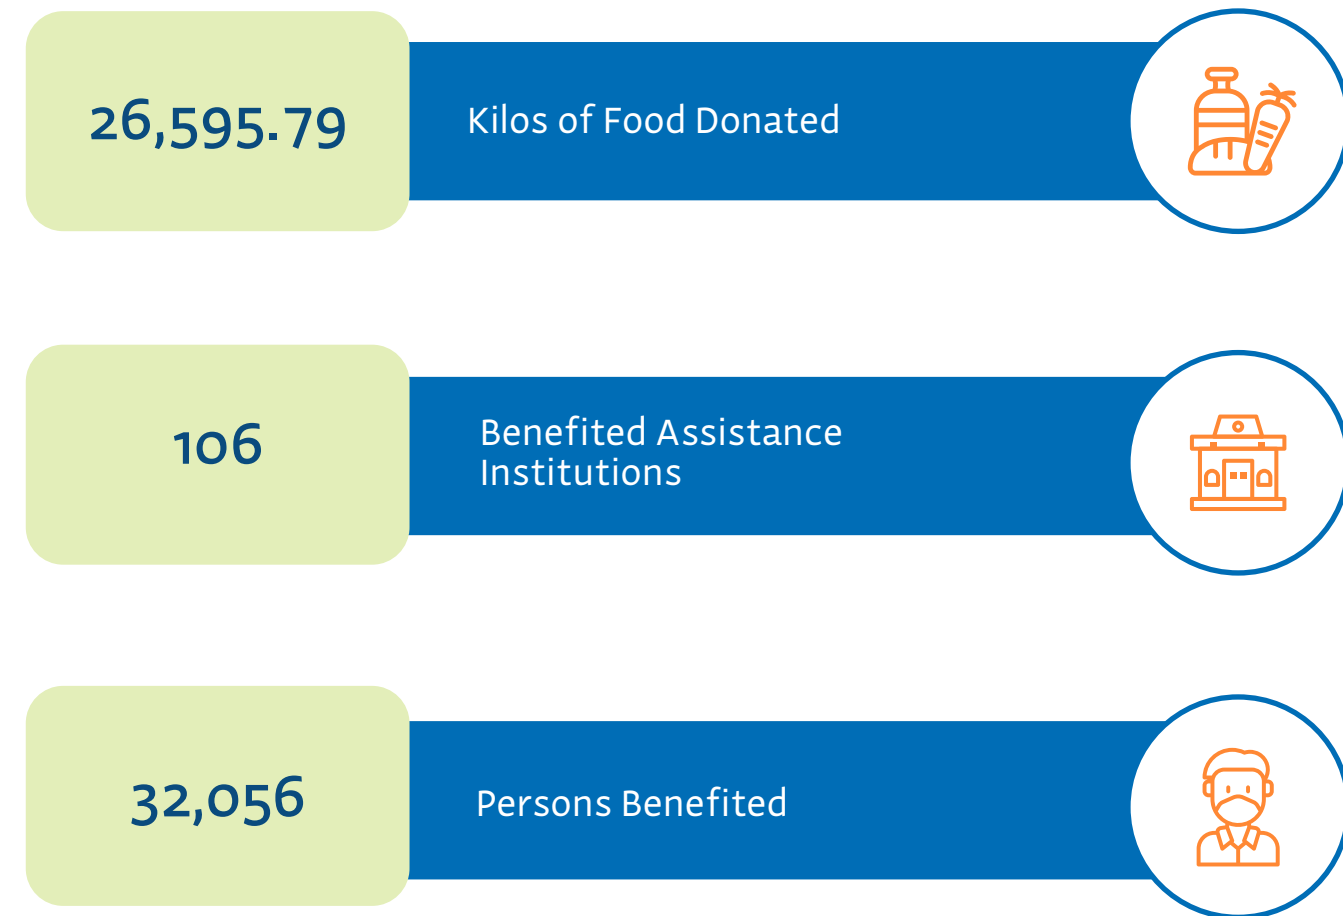

- 9.1. Working with Honduras Food Bank
- 9.2. Fighting against Breast Cancer
- 9.3. Giving Smiles with Operation Smile Honduras

# Fighting against hunger with the Honduras Food Bank

Committed to Goal 2 of the Sustainable Development Goals, DINANT is one of the founding partners of the Honduras Food Bank to help contribute ending all forms of hunger and the high rates of malnutrition that affect a large number of Hondurans.

# Fighting against Breast Cancer

Health being one of the priority pillars in its Social Responsibility Policy, DINANT has implemented a cause-related marketing campaign to raise awareness of breast cancer through its brand Mazola.

Since 2017, DINANT has been able to donate more than 2,400 mammograms to low-income people served by the Emma Romero de Callejas Cancer Center, a non-profit institution that works for the health of the Honduran population by offering high-tech medical services in the early detection and treatment of cancer.

Likewise, through one of the most advanced medical diagnostic centers in the city, we have made available to the Presidential Program Ciudad Mujer the reading and interpretation of mammograms performed at this center, which aims to provide Honduran women with comprehensive care services to contribute to the improvement of their living conditions. Thanks to this alliance in 2019 we have been able to benefit more than 1,400 women who attend this center

# Giving Smiles with Operation Smile Honduras

To support free surgical treatments for children, youth, and adults with Cleft Lip and Palate, DINANT since 2015 joined to collaborate with the work done by Operation Smile Honduras through its medical missions that are carried out in different parts of the country offering not only free evaluations and surgical interventions but also comprehensive care in the areas of psychology, dentistry, orthodontics, speech therapy, pediatrics, among others.

For the period 2019 and 2020, DINANT contributed more than L 300,000 for the medical brigades that took place in the city of San Pedro Sula and Santa Rosa de Copán

To date, the company has been able to give 48 new smiles to children born with cleft lip and palate.
